Welcome!

WELCOME to the second Finnish Super Rally. We organized the Super Rally for the first time in Finland in 2000, and those days are still in our minds. That rally was very nice and hopefully we have used well the experience we got then.

The rally organization has done a lot of work for two and half years to make this event successful. Our aim has not been to make the rally as big as possible, but we can host more than 15000 bikers if necessary. Instead we try to offer you a comfortable atmosphere, good facilities, great music and brotherhood between bikers. I hope that all of you will enjoy the rally site and all it can offer you, there is also a possibility to visit Finnish Sauna, try it!

Outside the rally site you'll find a beautiful countryside, nice people in small villages and the city of Seinäjoki. I can warmly recommend visiting shops and restaurants in the town.

Once again, welcome to Super Rally 2009.

MAYOR'S WELCOME

Super Rally 2009

- welcome to Seinäjoki,
welcome to Finland!

In Seinäjoki, we are delighted to host the Super Rally 2009 event. We are looking forward to the event with great enthusiasm and interest.

In Finland, Seinäjoki is known as a city of large events. The annual rock, tango and rally events pull in tens of thousands of visitors to Seinäjoki every year. Seinäjoki is a smart and friendly city for arranging events, where both the organizers and the participants of an event have the opportunity to enjoy what is essential - spending time together at a successful event.

Seinäjoki is situated in the middle of Finland and in the middle of a landscape of plains. We have good connections to all parts of Finland: to Helsinki, Tampere, Oulu and even beyond, to Lapland. In Seinäjoki, the visitor encounters plain scenery surrounded by fields and forests. They testify to a living countryside and strong food production. Consequently, I warmly recommend you to discover our clean and healthy food culture during your stay.

The City of Seinäjoki is a well-functioning and modern urban centre of 56 000 inhabitants. The distances between the venues, accommodations and the services of the city are short, and the use of the services is quick and easy.

Welcome!

Federation Harley-Davidson Clubs Europe FH-DCE Super Rally®

Every year a different place, organised by a different member club of the FH-DCE. This is the most European Harley-Davidson Rally that you can imagine. Riding a Harley-Davidson motorcycle is meeting new and old friends; discover other countries and cultures and this is all packed in the FH-DCE Super Rally®.

It goes from North to South, east to west, and every year it comes with a new surprise. From the reindeers in the North, to the pasta and cookies in the South. That's what makes the FH-DCE Super Rally® really super.

But talking about Super Rally®, where does the name come from? For this answer I had to go many years back. We go back to the sixties when Harley-Davidson Clubs from the Netherlands, Germany and Belgium meet each other at Harley-Davidson Rally's. One of the most popular Rallies was the Pinstler Rally in Holland. The first one was organised by H-D C Utrecht (this club later changed their name to Harley-Davidson Club the Netherlands). The Pinstler Rally became bigger and bigger and also the program was more than at a normal Harley-Davidson Rally. After the Pinstler Rally in 1973 the name was changed to Super Rally, why is not very clear. Possibly because a French club promised a Superrrrrr Rally for 1974 as it should be in Paris France. But they cancelled the Rally just one week before, so in fact the First Super Rally was a NOT a Super Rally at all.

In 1975 the first official Super Rally was held at Kastelree Belgium. It was not as big as it is today, but it was organised with the same goals and ideas as it is now. The FH-DCE Super Rally® will roll on in the future but be sure that the friendly hospitality and warm welcome among Harley friends will always be there.

Welcome to Finland 2009. For more information how to join the FH-DCE, see webpage <http://www.fhdce.eu>

The B

MOLLY HATCHET In the early 1970's a new form of music was emerging in the South. A mixture of blues, country, gospel and the English invasion of rock and roll that later was to be coined the phrase "Southern Rock". The music was filled with style and emotion with bands in the forefront such as Allman Brothers, Lynyrd Skynyrd and a band from Jacksonville, Florida called Molly Hatchet. Named after a famous 17th century axe murderess "hatchet molly" who would behead her lovers with the hand tool Lizzy Borden made famous.

Their self-titled first album was released on Epic records in 1978 and reached multi-platinum status as the band established their reputation of working hard, playing tough and living fast through intense touring with such bands as Aerosmith, Bob Seger, The Rolling Stones and many more. In 1979, *Flirtin' With Disaster* was released and history was in the making. The band continued touring on the road with an average of 250 live shows per year and like the first album it also achieved multi-platinum status. Current line-up is Bobby Ingram (guitar), Phil McCormack (vocals), John Galvin (keyboards), Dave Hlubek (guitar), Tim Lindsey (bass) and Shawn Beamer (drums).

ands

For over 30 years, **THE FABULOUS THUNDERBIRDS** have been the quintessential American band. The group's distinctive and powerful sound, influenced by a diversity of musical styles, manifested itself into a unique musical hybrid via such barnburners as "Tuff Enuff" and "Wrap It Up". Co-founder Kim Wilson, the sole original member, still spearheads the group as it evolves into its newest incarnation.

"We started as a straight blues band", vocalist and harmonica player Wilson says. "We now incorporate a mixture of a lot of different styles. We're an American music band and we're much higher energy than we were before."

In addition to Wilson, the current Thunderbirds line-up features Jay Moeller on drums, Johnny Moeller and Mike Keller on guitar and Randy Bermudes on bass.

The band continues to tour extensively, in both U.S. and Europe. Wilson is currently writing songs of his own, with the band members and other writers.

CRUCIFIED BARBARA is an immensely powerful hard rock band, which has been touring a lot and, among other things, has been an opening band for Motörhead. Girl power from Sweden to Super Rally - Mia Coldheart (vocals, guitar), Klara Force (guitar), Ida Evileye (bass) and Nicki Wicked (drums).

A group of ragtag desperados roaming the industry wasteland best describes **THE SIXGUN REPUBLIC**. That is one of Americana fueled by Texan integrity and urban reality. Whether it's Country and Western, Folk, Roots, Punk, Rockabilly or Blues, American born music lives and breathes fire in their soul.

The Sixgun Republic is a unit of well trained veterans with thousands of gigs under their belts. In one year alone, they've managed to scorch the Doll Hut in California,

cause a biker riot at the Deer Crossings in Texas and blasted the roof off CBGB's in New York.

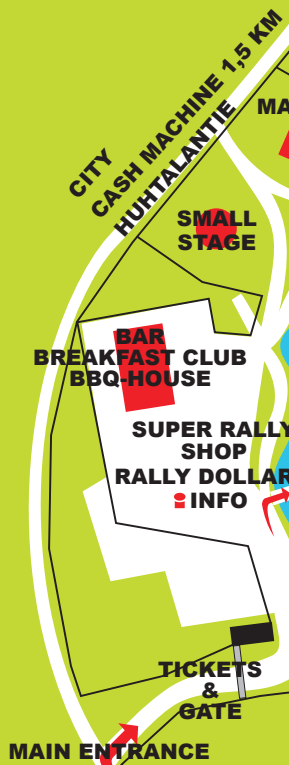

HELLBILLY BOYS started out as a guitarpicker Larry and his old friend Skidi found themselves longing for that old time backbeat, slapbass and twang from the time when music was played on real instruments by real people. Brought up on finnish sisu and a whole lot of old time R&R, Skidi who hadn't punched a drum in a long time didn't hesitate to pick up the sticks to provide the steady backbeat for the band. Next up was to achieve the bass slap, and out of the blue a man named Backis entered the scene. In the meantime Larry asked an ol' friend and guitarist Inge to join in and help out with the twang part and after that this greaser and his white Gretsch has been strummin' along to the rockabilly rhythm of the Hellbilly Boys.

**LOS BASTARDOS
FINLANDESES**

It is rumoured that on a moonlit night, in the desert of Sierra De San Geronimo, Don Osmo went to a gypsy woman to see if there was any point with going on as he had just gambled away his trusty ol' Les Paul guitar. As the gypsy woman dealt out her cards, Don got the infamous Bastardo Joker, which had never been dealt out to anyone before. In that moment a massive bolt of lightning struck the earth. As the mountains were shaking and the canyons were breaking, the woman said to Don, "You must go and start a band...".

On that night, Elvis was seen driving his black Cadillac on the horizon. Ever since that night the hard rockin' allstar band Los Bastardos Finlandeses has been delivering a full frontal motor rock attack with their amps turned to 12!
